

KĀ'EO ACHIEVEMENT LEVEL DESCRIPTORS (ALDs)

The ALDs (Achievement Level Descriptors) for KĀ'EO were created to parallel the ALDs for Smarter Balance, which reflect CCSS targets. The framework for and functionality of the KĀ'EO ALDs are the same as those of the ALDs used for Smarter Balance. Expectations for each kaiapuni standard and level of proficiency are outlined in the Range and Threshold ALDs. The Policy ALDs are a broad description of the four levels of student proficiency in Hawaiian language arts, math, and science. The Reporting ALDs are developed after Standard Setting and reflect student performance on the exam. The ALDs as a whole are used as a guideline in test development to ensure that the rigor of the exam corresponds with the program's goals for student performance both in the classroom and in testing. The following list are the ALDs included in this document:

- Reporting ALDs
 - [Grade 3 Math](#)
 - [Grade 3 Language Arts](#)
